

Azure Technical Chalk Talk

The Windows Azure platform is a set of cloud services and technologies that your developers can use to more efficiently create web services, manage data, and even increase your agency's open government transparency. The platform enables rapid development, massive scale, and elastic capacity – all at a fraction of the cost of traditional application development and delivery.

Come join our Microsoft Azure public sector expert for a casual technical “chalk talk” session! Some of the topics to be covered will include:

- Overview and Benefits of the Windows Azure Platform
- Azure Solution Showcase
 - Discussion and demonstration of several public sector Azure solutions
 - Featured presentation by Total Computer discussing a solution they built for the Town of East Hampton Police Department
- Architectural Overview and Capabilities of the Azure Platform
- How to Develop for and Migrate to Azure
 - Demonstration of a sample Windows Azure and SQL Azure application

Date and Time

Wednesday, December 21st from 1:00PM to 4:00PM

Location and Parking

The Microsoft Albany Office: 54 State Street, 7th Floor, Albany, NY 12207

The most convenient parking is located behind the building in the Green-Hudson Parking Garage, located at the corners of Hudson Avenue and Green Street.

RVSP

If you are interested in attending, please RSVP to Christina Maisonette (v-chmais@microsoft.com or 518-292-1117).
