### **Total Computer Gets Permanent Demo Exhibit at Microsoft's Executive Briefing Center in Brussels**

MELVILLE, NY, MARCH 14, 2011: Total Computer is pleased to announce that Microsoft has selected Total Enforcement™ (TE) for a permanent product demonstration exhibit at the Microsoft Executive Briefing Center in Brussels. To support this European EBC exhibit, TE is being hosted at the Dublin Azure Data Center in Western Europe. The U.S. instance is hosted in Chicago, Illinois. This is proof that an entire system can be deployed, server free, anywhere in the world in a matter of hours.

The Microsoft Executive Briefing Center (EBC) provides a professional and comfortable setting in which executive-level corporate and government leaders can build relationships with Microsoft executives and business experts. Executive briefings are tailored to address the unique challenges facing decision and policy makers. By providing access to the right people and resources, the briefings enable attendees to explore long-term business opportunities together.

Through this forum, Total Computer hopes to continue expanding its reach across the globe and is excited to have its flagship product, TE, showcased to participants in an international setting. Total is extremely pleased that Microsoft has not only recognized its technical accomplishments, but also supports its vision and ground-breaking innovation.

For more information, visit the Microsoft EBC [website](#).
